Legends Drive Information

At our request, Horry County police said they will place an electronic message board and a radar trailer along Legends Drive. Police Captain Buckingham said these are effective reminders for drivers to adhere to traffic signs and speed limits, especially with a new road. The equipment, which is of limited quantity and in high demand, could be placed temporarily and periodically, but not permanently.

Construction on Legends Drive between the guardhouse and the golf course will begin this coming week, weather permitting. The plan is to repair the road first, then lay the asphalt

surface the following week or possibly later in the month.

Please plan accordingly.
